21ST INTERNATIONAL CONFERENCE ON RENEWABLE MOBILITY

22 – 23 JANUARY 2024 | BERLIN

Dear Ladies and Gentlemen,

The International Conference „Fuels of the Future“ is the leading event of the European biofuels and renewable fuels industry and at the same time an important discussion forum for the German, European and international development of renewable mobility. In January 2024, once again more than 600 international participants are expected, including representatives from the biofuels and renewable fuels industry, petroleum and automotive industries, the chemical industry, the transport and logistics industry, the transport and logistics sector, the certification systems, politics, science and research.

For this purpose, the conference offers you a compact programme with lectures on current industry developments, on the economic and legal framework conditions for renewable fuels, raw materials, technological developments and sales potential in international markets.

THE FOCUS IS ON THE FOLLOWING TOPICS:

- Policy frameworks for biofuels, renewable fuels and renewable propulsion systems at international, European and national level
- Prospects for established biofuels on the market (Biodiesel, Bioethanol)
- E-fuels and renewable fuels of the 2nd and 3rd generations
- Biomethane in the transport sector
- Biofuels from waste and residual materials
- Biofuels in shipping, aviation and heavy freight
- Sustainability certification of biofuels in the context of globally expanding markets
- Power-to-X fuels, hydrogen from biomass and renewable energy energies and latest developments in market access
- Current developments in international biofuel trade
- Electromobility in the context of the hybridisation of drives with defossilised fuels
- Innovative sustainable mobility concepts in municipalities
- Biofuels and feedstocks in the context of agricultural trade and markets
- R&D projects for biofuels and renewable fuels
- Climate protection potentials through the use of renewable drive energies for agriculture and forestry
- Material use concepts and bioeconomy strategies

You are cordially invited to participate in the conference „Fuels of the Future 2024“ to find out more about the issues and to discuss these key topics with entrepreneurs, politicians and scientists. Our conference aims to provide an overview of the various development the different development paths of alternative fuels and drive technologies and to technologies and to promote intensive contact and networking.

Artur Auernhammer | Chairman of the Board
of the German Bioenergy Association (BBE)

INCREASE YOUR REACH

Publicly effective and market your company/organisation as well as your services and products to specific target groups and products by exhibiting at the „Fuels of the Future 2024“ conference as a partner.

Over 75 speakers

More than 600 participants

More than 60 Media partners

Regular newsletters & Social-Media-Posts for the conference

Conference Review 2023
