16TH INTERNATIONAL CONFERENCE ON RENEWABLE MOBILITY

21/22 January 2019 | CityCube Berlin

Ladies and gentlemen,

being the highlight event for the European biofuel industry, the international conference “Fuels of the Future” at the same time serves as an important forum for discussing European and international politics on biofuels and renewable mobility. The conference involves all relevant players on the market and aims at addressing the specific needs of the industry.

In January 2019, again more than 500 participants are expected to attend, among them representatives of the primary materials production industry and of logistics, of the mineral oil industry, of automotive engineering and the automotive industry, chemical industry, biofuel producers, auditors and environmental experts, as well as representatives from politics, certification systems, science and research.

To interested companies and associations the conference offers effective exhibition and cooperation possibilities which have the following targets:

- Position your company at the biggest gathering of the biofuel sector in Europe
- Profit from a strong political, scientific, economic and media presence in the German capital
- Enlarge your network through high quality international contacts
- Present your products and services and gain new orders

The conference provides a compact programme including lectures on current developments in the sector, on the economic and legal frameworks, on primary materials, potentials on international markets, biofuels in the aviation industry. Furthermore, in 2019 the focus will be on

- Renewable-Energy-Directive (RED) and the development of a renewable mobility
- Certification systems worldwide and the link to a bioeconomy
- Prospect on the established biofuels on the market until 2030 and beyond: Biodiesel and bioethanol
- Research and development for 1st generation biofuels
- Biofuels from waste and residual materials
- Bio-methane in the transport sector
- E-mobility
- Power-to-X

You are cordially invited to attend the “Fuels of the Future 2019” conference. You will have the opportunity to get more detailed information on the specified topics and to get into discussion with representatives from business, German and EU politics and science.

The objective of our expert conference is to provide a well-founded platform to the several development paths of alternative fuels and alternative drive technologies and to promote contacts and networking for our business clients.

Sincerely yours,

Artur Auernhammer, MdB
Chairman of the German Bioenergy Association (BBE)

16TH INTERNATIONAL CONFERENCE ON RENEWABLE MOBILITY

21/22 January 2019 | CityCube Berlin

Venue:

CityCube Berlin (opened May 2014), South Entrance of the Berlin Exhibition Grounds, Messedamm/corner of Jafféstraße <http://www.citycube-berlin.de/>

Date:

21/22 January 2019

Organisers:

BBE – German Bioenergy Association
UFOP – Union for the Promotion of Oil and Protein Plants
BDBe – German Bioethanol Industry Association
VDB – Association of the German Biofuels Industry
FvB – German Biogas Association

Project management and organisation:

Office of the German Bioenergy Association
Markus Hartmann
Godesberger Allee 142 – 148
D-53175 Bonn
Tel. 0228 81 00222
Fax 0228 81 00258
Email: hartmann@bioenergie.de

Opportunities for exposition and participation:

Companies and organisations interested in promoting their engagement efficiently to a public and targeted audience are offered to support the conference as a partner and thereby present their company. Sponsors can benefit in the following ways:

- Initiate new business contacts.
- Improve information on and acceptance of your products.
- Present progressiveness and technical know-how.
- Create a positive image as an ecology-minded and responsible company.
- Generate the perception of a leadership position on the biofuel market.
- Corporate advertising reaches out to a wide target group due to the presence of a large specialised audience and specialised press.
- Exclusive advertisement in direct mailings via inclusion of your logo in the programme flyer, the proceedings and on the Internet.
